

ENTREPRENEURSHIP

Entrepreneurship relies on creativity, new ideas and challenging existing products or services.

Entrepreneurs may start a new business or revitalize current businesses through corporate ventures and new innovations.

The Entrepreneurship program at Wichita State focuses on the creation of a new business and the management of growing a small business, including family-owned businesses. You will learn to recognize new opportunities and determine feasibility as well as small business financing and writing successful business plans.

Also, available is an emphasis in real estate. The Entrepreneurship-Real Estate option is for students interested in pursuing a career in property development or managing their own real estate company.

The W. Frank Barton School of Business also offers a Master of Business Administration with a concentration in Entrepreneurship & Innovation.
